INTEPLAST GROUP
AmTopp

Dear Valued Customer,

Thank you for your continued business and partnership. We value the opportunity to support your business and remain committed to delivering the product quality, reliable supply, and service you expect from AmTopp

Since our previous price adjustment announcement, cost pressures across our business have continued to intensify. Volatility in global oil, energy, and petrochemical markets has increased raw-material costs, while transportation, packaging, and other essential operating expenses have also risen. Our internal market data indicates substantial year-over-year increases in several of these categories.

We have worked diligently to mitigate these increases through productivity improvements, strategic procurement, and disciplined cost management. While these efforts have offset a significant portion of the impact, they can no longer fully absorb the continued escalation in our operating costs.

Accordingly, we are replacing the previously announced 5% price increase, scheduled for November 9, 2026, with an 8% price increase on all products for orders placed on or after November 16, 2026. This adjustment reflects approximately 5% attributable to raw-material cost increases and an additional 3% attributable to broader inflationary pressures.

The revised 8% increase replaces—not adds to—the previously announced 5% increase.

To maintain consistent product availability and service, all orders must be placed for immediate delivery. We also reserve the right to manage order quantities in accordance with established historical purchasing patterns.

We understand the impact price adjustments can have on your business and have carefully considered this decision. We remain focused on managing costs while maintaining the quality, supply reliability, and service that support your operations.

Please contact your Sales Representative or Customer Service team with any questions about this adjustment or to discuss your specific business needs.

Thank you for your understanding, continued trust, and valued partnership.

Scott Stevens

General Manager

November 5th, 2026

Dear Valued Customer,

Your partnership is extremely important to us, and we appreciate the opportunity to continue supporting your business.

Since our previous price increase announcement, cost pressures across our business have continued to escalate. In addition to increased raw-material costs driven by volatility in global oil, energy, and petrochemical markets, we are experiencing significant inflation across transportation, energy, packaging, and other critical operating inputs. Our internal market data shows substantial year-over-year increases across several of these categories, including road and ocean freight.

We have worked diligently to offset these rapidly escalating costs through productivity improvements, procurement initiatives, and other cost-management efforts. These actions have helped absorb a significant portion of the inflation we have experienced; however, they are no longer sufficient to fully offset the continued increases in our cost structure.

As a result, we are revising our previously announced 5% price increase, which was scheduled to take effect November 9th, 2026. The revised increase will be 8% on all products, effective for orders placed on or after November 23rd, 2026. This 8% adjustment reflects approximately 5% associated with raw-material cost escalation and an additional 3% related to broader inflationary pressures impacting our business.

This revised 8% increase replaces the previously announced 5% increase and is not incremental to it.

To support consistent product availability and service during this period, **all orders must call for immediate delivery.** We also reserve the right to manage order quantities based on established historical purchasing patterns.

We recognize the challenges that price adjustments create for our customers and do not take this action lightly. We remain committed to managing costs aggressively while maintaining the reliable supply, product quality, and service you expect from us.

Please contact your Sales Representative or Customer Service team with any questions regarding this adjustment or to discuss the specific needs of your business.

We greatly appreciate your continued trust, business, and partnership.

Sincerely,

Stephenie Henderson

LAMITECH, INC.

Dear Valued Customer,

As we approach the end of 2026, we want to thank you for your continued business and support.

Like many manufacturers throughout the paperboard industry, Lamitech continues to face rising costs for raw materials, labor, energy, transportation, and manufacturing operations. While we have worked diligently to absorb these increases and minimize their impact on our customers, continued cost pressures have made a pricing adjustment necessary.

Effective December 1, Lamitech will be implementing a price adjustment across our paperboard product lines.

For specific pricing information and details regarding how this adjustment may affect your orders, please contact your Lamitech representative.

We remain committed to providing the quality products, competitive pricing, dependable deliveries, and responsive customer service you have come to expect from Lamitech.

We sincerely appreciate your understanding, continued trust, and valued partnership.

Thank you for choosing Lamitech.

The Lamitech Sales Team

October 29, 2026

Re: Transportation Fuel & Freight Capacity Surcharge

Dear Valued Customer,

We greatly appreciate your continued business, partnership, and trust in our team.

As part of our ongoing commitment to providing reliable service and maintaining the transportation capacity necessary to support our customers, we continually monitor the costs associated with delivering our products. Transportation expenses continue to be impacted by fuel costs, the availability and cost of qualified truck drivers, and freight capacity.

Since the beginning of 2026, the national average price of on-highway diesel fuel has increased approximately 83%, from $3.48 per gallon in early January to $6.35 per gallon in late October, while the trucking industry continues to face significant constraints in the availability of qualified drivers and reliable freight capacity. Additionally, truckload line haul rates have increased 35% over this same time as the average rate per mile has increased from $1.67/mile to $2.36/mile.

After careful consideration, a ***3.3% transportation fuel and freight capacity surcharge*** will be applied to orders placed on or after ***November 12, 2026,*** on the following product lines:

- ***Tape***
- ***Stretch Film***
- ***Shrink Film***
- ***PaperSpace® & AirSpace® Void Fill***

The surcharge will be implemented as a line-item adjustment designed to offset a portion of these extraordinary freight-related costs. All orders must specify immediate shipment and be limited to one month's normal average purchases.

We will ***review the surcharge on a quarterly basis***, taking into account changes in national diesel fuel prices and truckload line-haul rates.

Our goal is to maintain transparency while ensuring that we can continue providing the service, delivery reliability, and transportation capacity our customers expect from us.

This decision was made only after careful review of the transportation environment and its impact on our industry. We sincerely ask for your understanding and support as we work to manage these external cost pressures while continuing to provide the high level of service you expect.

Thank you for your continued partnership and business. We greatly value our relationship and look forward to continuing to serve you.

Sincerely,

Shawn Nelson
Senior Vice President, Sales & Marketing
IPG

Amcor Flexibles Converter & Distribution

October 27, 2026

Dear Valued Stretch Film Customer,

Ongoing instability in the Middle East, coupled with strong global export demand and constrained inventories, continues to cause disruptions on polyethylene (PE) resin supply. At the same time, transportation and freight costs remain elevated, creating additional upward pressure on raw material pricing.

As a result of these market conditions, our resin suppliers have announced another increase in raw material costs, marking the sixth resin increase implemented in 2026.

To partially offset these rising costs, IPG will implement a 5% price increase on all SuperFlex® and StretchFlex® products for orders placed on or after November 6, 2026. All orders must be requested for immediate shipment and fall within standard order quantities and delivery lead times. We will continue to closely monitor order patterns and reserve the right to allocate or adjust orders that exceed normal purchasing volumes. Additionally, as is customary during periods of supply constraint, order acceptance will remain subject to resin availability.

We understand that persistent market volatility creates challenges for planning and managing your business, and we do not take these decisions lightly. IPG remains committed to supporting our customers and maintaining reliable supply while navigating these unprecedented market conditions.

We sincerely appreciate your continued partnership and trust. Your local sales representative will be reaching out to discuss the impact of this adjustment and answer any questions you may have. Should you require additional assistance, our management team remains available to support you.

Thank you for your continued business.

Sincerely,

Glenn K. Cooper
Vice President - Stretch Film & Strategic Planning

October 26, 2026

Ref: Pallet Stretch Film Price Increase (LLDPE)

Dear Valued Customer:

Resin manufacturers have implemented their October increase. As a result of this resin increase, Western Plastics will implement an increase on all stretch film pricing as follows:

All Pallet Stretch Films	5%

Normal order requirements received on, or before November 20, 2026 calling for immediate shipping, will be invoiced at current levels. Orders received on, or after November 23, 2026 will be billed at the increased price.

Western Plastics continues to offer a range of down-gauged, high performance films designed to lower your film cost. The expanded HYBRiD80 line of film is available in:

HYBRiD80	Banding Films
HYBRiD80	Hand and Machine Films
HYBRiD80	Wide Web Films
HYBRiD80	Color Films
HYBRiD80	Extended Core Films
HYBRiD80	Engineered Films

Call us today for an alternative, high performance stretch film and improve your stretch film margins.

Thank you for your continued support of Western Plastics.

October 26, 2026

Dear Valued Customer,

Continued geopolitical instability in the Middle East has led to a sharp increase in global oil and energy prices, placing pressure on petrochemical and polyethylene markets causing polyethylene pricing in global markets to rise for a second consecutive month.

Our resin suppliers have announced an **October increase in polyethylene resin pricing**. As a result, **Sigma Stretch Film will implement a 5% price increase, effective on all new orders placed on or after November 6, 2026.**

All orders must call for immediate delivery. Sigma Stretch Film reserves the right to accept or decline any order, in whole or in part, at our sole discretion.

We recognize the impact that continued cost increases can have on your business and have worked to hold pricing as long as possible.

Sigma Stretch Film remains committed to providing reliable supply, competitive pricing, and transparent communication as market conditions evolve.

Please reach out to your sales representative with any questions or to discuss your specific needs. We greatly appreciate your continued business, trust, and partnership.

Sincerely,

Trioworld

October 26, 2026

Dear Valued Customer,

Global oil and energy costs have sharply increased due to ongoing geopolitical unrest in the Middle East, putting pressure on the petrochemical and polyethylene markets and driving up polyethylene prices for the second month in a row.

Our suppliers have announced an increase for October in polyethylene resin prices. As a result, Trioworld will implement a 5% price increase for all new orders placed on or after November 6, 2026.

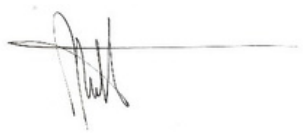

All orders must call for immediate delivery. Trioworld reserves the right to accept or decline any order at our sole discretion.

We recognize the impact these market conditions are having on your business. Trioworld remains committed to helping mitigate these increases through the use of higher-performance film solutions designed to reduce overall cost per pallet wrapped — not simply cost per roll.

Your Trioworld Corp. Sales Representative will be in contact to discuss the changing market conditions and answer any questions you may have.

Thank you for your continued support and loyalty.

Regards,

Michael D. Richwalder
Vice President of Sales

PARAGON FILMS
DESTINATION SECURED

October 26, 2026

RE: Price Increase Effective November 6, 2026

Dear Valued Customer,

Thank you for your continued partnership with Paragon Films. We are writing to inform you of a price adjustment that will take effect with orders placed on or after **November 6, 2026**.

The ongoing conflict in the Middle East has driven oil prices sharply higher, and this has directly affected the polyethylene resin market. Our resin manufacturers have notified us of cost increases on the resin used to produce our films. As a result, Paragon Films will implement a **5% price increase** on all products, effective with orders placed on or after November 6, 2026.

To maintain the quality service levels that you expect from us during this period, please note the following:

- **Immediate delivery:** All orders must call for immediate delivery.
- **Order limits:** Paragon Films reserves the right to limit orders based on historical order patterns.

We do not take price adjustments lightly, and we remain committed to delivering the consistent quality, reliability and service you count on. If you have any questions about this increase or how it applies to your account, please contact your Paragon Films Sales Representative or Customer Service team.

We sincerely appreciate your business and your understanding.

Sincerely,

Clay Tiedeman

Moonachie, New Jersey 07074
Phone: (201) 863-8844

October 27th, 2026

Dear Valued Customer,

We want to provide an update regarding recent market developments impacting several of the commodities we supply.

Over the past several months, the packaging industry has experienced continued increases in paper, freight, energy, and other raw material costs. Most recently, major North American containerboard producers announced a third significant paper increase this year, creating additional cost pressures across corrugated products and related packaging commodities.

We recognize the challenges that the frequency and magnitude of these increases create for our customers. While we have continued to absorb costs wherever possible, the ongoing escalation has led to further pricing adjustments. As a result, corrugated products will increase 9.5% for all orders placed on or after Monday, November 16, 2026. Other affected commodities and their respective price adjustments are outlined below.

To maintain adequate inventory for all customers, only orders consistent with established historical ordering patterns will be accepted at current pricing prior to November 16, 2026.

President Industrial Products
200 West Commercial Ave
Moonachie, New Jersey 07074
Phone: (201) 863-8844

Commodity	Increase
Corrugated Products	9.50%
Kraft Rolls (KR)	9%
Newsprint (NP)	11%
Paper Pad (MBP)	7%
Stretch Wrap (SW)	6%
Tape PP Hotmelt (TPP)	15%
Tape (PVC)	10%
Corrugated Rolls (CR)	9%
Chip Board (CB)	3%

We remain committed to providing consistent quality, service, and transparency while managing pricing in a fair and predictable manner. Should market conditions stabilize, we will evaluate pricing accordingly. Please note, price books will be sent on Monday, November 16, 2026.

Thank you.

Best,

President Industrial Products

October 26, 2026

To Our Valued Customers,

Continued instability in the Middle East is placing sustained pressure on the global polyethylene supply chain. Rising energy costs, production constraints, and elevated freight expenses continue to drive up the cost of polyethylene resin and finished stretch film products.

Following the October polyethylene resin increases announced by our suppliers, these additional costs have made a price adjustment necessary. **K Packwill increase pricingby5%onallstretchfilm productsfororordersreceivedonorafter November 6,2026.**

Orders placed before the effective date must be scheduled for immediate shipment. Acceptance will depend on available inventory, resin supply, and production capacity. We may limit order quantities based on these conditions, and all orders remain subject to approval.

We understand that these ongoing conditions present challenges and uncertainty. We appreciate your continued partnership and value your feedback as we navigate this situation together. Our team remains committed to supporting your business, and your sales representative is available to discuss any questions or specific needs.

We sincerely appreciate your continued trust and partnership.

RE: IPG Price Adjustment Announcement

Dear Valued Customer, current developments in the Middle East have significantly disrupted global energy markets, as well as the supply of raw materials and freight services both in North America and internationally. The resulting uncertainty and increased risk within the industry are attributed to mounting pressures on supply chains, particularly those involved with resin-based materials.

Suppliers across North America and globally have begun implementing price increases, with further adjustments possible as circumstances evolve. In response to these rapid changes, IPG is closely monitoring market conditions and remains dedicated to ensuring consistent supply, high product quality, and attentive support for our customers.

Price Adjustment Effective November 2, 2026

PROTECTIVE PACKAGING PRODUCTS	% INCREASE
PaperSpace® X-Fill and X-Pad Products	7%
All Fragile Wrap Products	7%
All Curby® Mailers	7%
All Ecolite® Mailers	4%
All DuraKraft Bubble Products	4%

Orders for the products listed above will be accepted at current pricing through **October 30, 2026**, provided shipments do not extend beyond **November 15, 2026**.

We appreciate your understanding and continued partnership as we navigate these industry challenges together. For any questions or details regarding the market factors driving this adjustment, please contact your IPG Territory Business Manager or Customer Service Representative.

Sincerely,

Jim Brennan

September 28, 2026

Dear Valued Customer,

Over the past several months, the polyethylene resin market has continued to experience upward cost pressure driven by increases in feedstock, energy, transportation, and operating expenses. In addition, our resin suppliers have announced further price increases, which continue to affect our overall manufacturing costs.

As a result, AmTopp Stretch Films will implement a 6% price increase on all new orders received on or after October 9, 2026.

We have worked diligently to manage these rising costs and minimize their impact on our customers wherever possible. AmTopp remains committed to providing innovative stretch-film solutions that support load containment, reduce material usage, and improve packaging efficiency.

We will continue to monitor market conditions closely and communicate any significant developments in a timely and transparent manner.

If you have questions about this announcement or its potential impact on your business, please contact your local AmTopp Stretch Film sales representative.

We sincerely appreciate your continued business, trust, and partnership.

Sincerely,

Sep 28, 2026

Scott Stevens

General Manager

September 24, 2026

Dear Valued Customer,

Over the past several months, polyethylene resin markets continue to face upward pressure from higher feedstock, energy, and logistics costs. Our resin suppliers have announced additional price increases, while ongoing inflation in freight and operations continues to affect our manufacturing costs.

As a result of these market conditions, Amcor Stretch Films will implement a **6% price increase on all new orders received on or after October 5, 2026.**

We have worked diligently to manage rising costs and minimize the impact on our customers whenever possible. We remain committed to delivering innovative, stretch film solutions for every application that optimize load containment, reduce film usage, and improve packaging efficiency. We will continue to monitor market conditions closely and communicate significant developments transparently.

Should you have any questions regarding this announcement or its impact on your business, please contact your Amcor Stretch Film sales representative.

We sincerely appreciate your continued business, confidence, and partnership.

September 23, 2026

Dear Valued Customer,

After a period of relative stability, polyethylene resin markets are once again experiencing significant upward cost pressure. Ongoing geopolitical instability in the Middle East has contributed to a sharp increase in global oil and energy prices, placing additional pressure on petrochemical and polyethylene markets causing polyethylene pricing in global markets to rise, while transportation and freight costs have also increased significantly.

Our resin suppliers have announced a **September increase in polyethylene resin pricing**. Combined with higher energy, transportation, and other related costs, these increases are materially impacting our overall cost structure. As a result, **Sigma Stretch Film will implement a 6% price increase, effective on all new orders placed on or after October 2, 2026**.

All orders must call for immediate delivery. Sigma Stretch Film reserves the right to accept or decline any order, in whole or in part, at our sole discretion.

We recognize the impact that continued cost increases can have on your business and have worked to hold pricing as long as possible. Unfortunately, the sustained increases in resin, energy, and transportation costs make this adjustment necessary.

Sigma Stretch Film remains committed to providing reliable supply, competitive pricing, and transparent communication as market conditions evolve. We will continue to closely monitor resin, energy, transportation, and global polyethylene markets and keep you informed of any meaningful changes.

Please reach out to your sales representative with any questions or to discuss your specific needs. We greatly appreciate your continued business, trust, and partnership
Sincerely,

ISO 9001 Certified

A Shurtape Technologies, LLC Company

June 1, 2026

Dear Valued Customer,

We would like to inform you of an upcoming price adjustment for our products.

Due to significant increases in raw material costs, manufacturing expenses, and supply chain charges, we have found it necessary to revise the pricing for all Industrial tape products placed with a ship date on or after July 1, 2026. Details specific to your account can be found in your updated pricing portfolio.

We understand that price changes can impact your planning and budgeting, and we have made every effort to minimize this adjustment. However, maintaining the quality, reliability, and service standards you expect requires this necessary change.

We greatly value your business and continued trust in our products. Our team remains committed to providing you with the best possible service and support.

If you have any questions, please do not hesitate to contact us.

Thank you for your understanding and continued partnership.

With appreciation,

Chris Hart

Vice President of Sales & Marketing

Pro Tapes, LLC

May 5, 2026

Dear Valued Customer,

The polyethylene market continues to experience significant volatility driven by ongoing global disruptions, particularly in the Middle East. These conditions are impacting supply availability, increasing energy costs, and creating continued upward pressure on resin pricing.

In addition to prior increases implemented earlier this year, our suppliers have now announced an additional $0.20/lb. increase for May, with indications of continued instability in the near term.

As a result, Alliance Films will implement a price increase of up to 15%, effective on all orders received on or after May 18, 2026.

To manage supply responsibly and maintain service levels, orders will be reviewed based on historical purchasing patterns. We will continue to work closely with each customer to prioritize supply and support your business as effectively as possible.

We recognize the impact these market conditions have on your operations. Our team remains focused on helping offset these increases through higher-performance film solutions that reduce overall cost per pallet wrapped, not just cost per roll. If you have any questions, please reach out directly to your sales representative. We appreciate your continued partnership.

Sincerely,

Troy Wolf
President
Alliance Films

May 1st, 2026

RE: Vibac Price Adjustment Notification

Dear Valued Vibac Customer,

Further to our previous letter, we regret to inform you that the supply situation for key raw materials has not improved in recent weeks. Availability remains extremely tight, lead times are increasingly being extended, prices continue to rise.
Our priority remains to secure sufficient raw materials in a timely manner, so that we can continue supplying you reliably and limit the impact of the ongoing disruptions across the supply chain.
As a result, Vibac will be implementing pricing adjustments to reflect current market conditions while continuing to ensure the quality, consistency, and service you expect from us.

The following pricing adjustments will take effect on May 22, 2026. A summary of the applicable increases is outlined below:

PACKAGING & INDUSTRIAL TAPE	Increase %*
Hot Melt Carton Sealing Tape (includes printed and printable)	8%
Acrylic Carton Sealing Tape	Quotation on order
Natural Rubber Carton Sealing Tape, PVC	10%
All Duct, Filament, Strapping, WAT, Double sided tape	5%
Masking Tape	3%

These adjustments apply across all inventory pricing, including existing customer agreements and deviation programs.

Orders placed prior to May 22, 2026 will be processed at current price levels. Vibac will manage order intake and reserves the right to modify order details and quantities with proper customer notification prior to order confirmation.

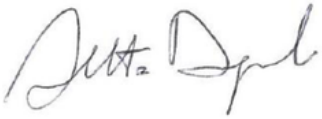

Orders received after May 22, 2026 5:00 EST, will be processed at the revised pricing. Updated price list details will be shared on May 22, 2026.

Vibac remains committed to ensuring continuity of supply and is actively monitoring market conditions.

Your Account Manager will be in contact to discuss the impact on your account. For any immediate questions, please reach out to your Account manager.

Sincerely,

Alberto Depaoli
Sales and Operations Manager

2805 Commerce Drive Rock Hill, SC 29730

Price Change Announcement

April 30, 2026

Dear Valued Customers:
To ensure we can continue delivering the superior quality and innovative solutions you rely on, particularly given the persistent rise in raw material costs, Alliance Plastics is implementing a price adjustment of **6%**. This increase will be effective starting June 1, 2026, and will apply to all EdgeGuard, EdgeGuard DX, and DXL products, as well as our newest line of slipsheets.

We recognize the pressures of the current economic environment and are committed to being proactive partners in helping you mitigate this change. This is an excellent time to leverage the cost-saving benefits of our advanced DX and DXL technology, which can potentially offset more than the 6% adjustment. We strongly encourage you to contact your Alliance sales representative for a complimentary audit. They can demonstrate how our technology can provide significant carbon footprint savings and, most importantly in today's inflationary market, help you achieve meaningful cost mitigation.

We truly value your continued partnership and remain dedicated to providing you with the most innovative products and exceptional service. Please reach out to me directly at gale@allianceplastics.net or (818) 613-2500 with any questions you have.

Gale Marcus

Executive Vice President, EdgeGuard

"When you choose *Edgeguard*, you're choosing the industry leader in corner board protection. **Try DX & DXL board, *I guarantee it!***"

— Gale Marcus, EVP of EdgeGuard

April 27, 2026

To Our Valued Customers,

Ongoing geopolitical instability in the Middle East continues to drive significant energy market disruptions, supply chain constraints and resin production tightness. These ongoing constraints are impacting polyethylene availability and pricing across North America. Our suppliers have implemented several significant price increases with immediate effect in response to the extraordinary changes. In addition to previously announced price increases in March and April 2026, our resin suppliers have announced an additional price increase for May 2026.

As a result of the announced May resin increase, Amcor Stretch Films will increase prices by 10%, effective on all orders placed on or after May 18, 2026. To best support our customers and manage supply responsibly during this period, Amcor reserves the right to limit order quantities. All orders must call for immediate delivery.

Due to ongoing resin availability constraints, Amcor Stretch Film also reserves the right to restrict order quantities and ensure responsible supply during this period. All orders must call for immediate delivery.

We recognize this continues to be a challenging and uncertain period, and we value your ongoing feedback and partnership as we navigate these conditions together. We remain committed to engaging with you as we navigate this situation. If you have any questions, your sales representative is available to discuss details specific to your business.

Thank you for your continued trust and partnership.

Best regards,

Stephenie Henderson

Dear Valued Customer,

Signode will be implementing a 7.5% increase on Magnus and Apex steel strapping based on the increase in raw material, energy, and other inflationary inputs. Strapping Seals will increase 12% across all products.

These increases will be effective on all orders received on or after May 1st, 2026.

Signode values your partnership. We are committed to delivering exceptional quality products and services.

Your Signode Packaging Sales Representative will be able to assist you with any questions regarding this situation.

Sincerely,

Adam Henricks
Product Manager

April 13, 2026

To Our Valued Customers,

ADDENDUM – Price Increase (Update April 2026)

As market conditions continue to escalate, our resin suppliers have revised their April 2026 price increase from 20% to 30%. Persistent supply chain disruptions, elevated energy costs, and ongoing production constraints are placing significant pressure on raw material markets, further tightening material availability across North America and driving higher costs.

Despite our continued efforts to manage these conditions, **Amcor Stretch Film will be revising the previously communicated increase and implementing a 30% price increase,** effective for all new orders placed on or after **April 20, 2026.**

Due to ongoing resin availability constraints, **Amcor Stretch Film also reserves the right to restrict order quantities and ensure responsible supply during this period. All orders must call for immediate delivery.**

We recognize this continues to be a challenging and uncertain period, and we value your ongoing feedback and partnership as we navigate these conditions together. We remain committed to engaging with you throughout this situation. If you have any questions, your sales representative is available to discuss details specific to your business.

Thank you for your continued trust and partnership.

Best regards,

Stephenie Henderson
Vice President of Sales – Stretch Film

RE: Polyethylene (PE) Price Increase April and May 2026

Dear Valued Customer,

Equistar Chemicals, LP **is revising the announced price increase of $0.20/lb. to $0.30/lb.** for all grades of polyethylene sold in North America, **effective April 1, 2026**.

Equistar Chemicals, LP **will implement the previously announced price increase of $0.20/lb.** for all grades of polyethylene sold in North America, **effective May 1, 2026**.

Equistar's goal continues to be production of polyethylene in sufficient quantities to fulfill current orders. Fulfillment of future orders (including those submitted prior to the increase date) are subject to Equistar's acceptance of each order and our ability to supply product.

We appreciate your business and the confidence you have placed in us as a supplier of your polyethylene needs. Your Account Manager can answer any questions you may have regarding these price amendments.

Sincerely,

Brian K. Griffin
Vice President, Polymer Sales and Distribution, Americas
Equistar Chemicals, LP

April 9, 2026

Dear Valued Customer:

Alliance Plastics is restating the previously announced increase of $0.20/lb to a new price increase of $0.30/lb, effective with orders placed on or after April 13, 2026. This price increase applies to all stretch film-based products.

In recent days, major resin suppliers have revised their previously announced April 1st increases from $0.20/lb to $0.30/lb, reflecting continued escalation in raw material costs and tightening supply conditions.

Your Alliance Films representative will be in contact with you to discuss specific pricing on the products you purchase and to answer any questions you may have. We value your business and appreciate the opportunity to continue to serve your stretch film needs.

We are currently monitoring the ongoing situation very closely, and this may require us to notify you of further changes above and beyond what is stated in this letter.

April 9, 2026

Dear valued customer,

Market conditions for our raw materials continue to intensify, driven by persistent supply chain challenges, elevated energy costs, and ongoing production limitations. These pressures have further restricted material availability across North America and accelerated cost increases. Our resin suppliers have now revised their April price adjustment upward from $0.20 to $0.30 per pound, reflecting the rapidly evolving supply environment.

In response to these continued and accelerated resin cost increases, Sigma Stretch Film will implement a price increase of 30%, effective on all new orders placed on or after April 20, 2026.

All orders must call for immediate delivery. Due to severely constrained resin availability and ongoing supply uncertainty, Sigma Stretch Film will strictly limit order volumes and allocation. Order acceptance will be prioritized based on available resin supply, and we may be unable to fulfill all requested quantities. Sigma Stretch Film reserves the right to accept or decline any order, in whole or in part, at our sole discretion.

We understand these market-driven changes create challenges for your business, and we are committed to supporting you through this period. Sigma Stretch Film remains focused on maintaining reliable supply and transparent communication as conditions evolve. Please reach out to your sales representative with any questions or to discuss your specific needs—we are here to help you plan and navigate the current environment. We truly value your continued trust and partnership.

Sincerely,

Tom Paulett

RE: Vibac Price Adjustment Notification

Dear Valued Vibac Customer,

In recent weeks, we have experienced continued volatility across key cost drivers impacting our industry. Tightness in raw material supply along with transportation, raw material, and energy cost increases, have created sustained pressure throughout the supply chain.
As a result, Vibac will be implementing pricing adjustments to reflect current market conditions while continuing to ensure the quality, consistency, and service you expect from us.

The following pricing adjustments will take effect on **April 20, 2026**. A summary of the applicable increases is outlined below:

PACKAGING & INDUSTRIAL TAPE	Increase %*
Hot Melt Carton Sealing Tape (includes printed and printable)	10%
Acrylic Carton Sealing Tape	Quotation on order
Natural Rubber Carton Sealing Tape	5%
All Duct, Filament, Strapping, WAT, Double sided tape	5%
Masking Tape	5%

These adjustments apply across all inventory pricing, including existing customer agreements and deviation programs.

Orders placed prior to April 20, 2026 must be scheduled for immediate shipment and reflect normal purchasing patterns.
Orders placed prior to April 20, 2026 having shipping date after Apr 20, will be affected by price adjustment.
Vibac will manage order intake based on production capacity and raw material availability, and reserves the right to limit quantities

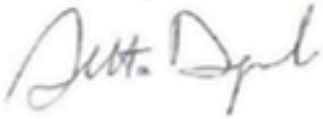

Orders received and shipped after April 20, 2026 5:00 EST, will be processed at the revised pricing. Updated price list details will be shared in the coming days.

Vibac remains committed to ensuring continuity of supply and is actively monitoring market conditions.

Your Account Manager will be in contact to discuss the impact on your account. For any immediate questions, please reach out to your Account manager.

Sincerely,

Alberto Depaoli
Sales and Operations Manager

FIDELITY PAPER & SUPPLY CORP

April 2, 2026

Dear Valued Customer,

Recent geopolitical unrest in the Middle East has increased volatility across energy, raw materials and global logistics networks. As a result, supply chains – particularly those connected to resin-based products – are experiencing heightened risk and uncertainty.

Resin producers across the globe have already implemented price increases, with the potential for more announced in the coming months. The unprecedented pace and nature of these market dynamics have led us to take immediate action to ensure continuity with our customers.

Following a comprehensive review and analysis of market conditions, Fidelity Paper will implement a price adjustment across the following resin-based product categories, **effective April 6,2026:**

Bubble stock & Foam Rolls	**9%**
Foam Profiles	**9%**
Air-Kraft Mailers	**9%**
Stretch Wrap	**15%**
Air Speed inflatable systems	**9%**
Poly based cohesive materials	**9%**
Poly Bags	**10%**
Corner boards	**8%**
Foam EPS	**12%**
Eco Peanuts	**12%**
Tapes:	
Water Activated Tape	**8%**
Poly Pro Acrylic & Hot Melt	**10%**
Flatback	**8%**
All Industrial tapes not listed	**8%**

While the industry faces these challenges, Fidelity Paper is committed to providing customers with reliable supply, consistent products and responsive support. Our team is prepared to support you in communicating the market forces behind these updates to your customers.

Thank you for your partnership as we manage through these conditions together.

Sincerely,
Dave Guariglia
President
901 Murray Road, East Hanover, NJ 07936

3/31/26

Dear Preferred Plastics Team,

We would like to share an update regarding the evolving situation in the Middle East, its impact on global supply chain, and how these developments are affecting our operating environment. As always, our primary focus remains on continuity of supply, with teams actively managing inventory and coverage across impacted areas. In the past we have successfully overseen several disruptions with similarly broad impacts to the supply chain, such as COVID and other recent supply chain constraints.

Today, the worsening conflict in the Middle East is causing rapid increases in raw material prices, including film, foil, and resin, as well as immediate spikes in logistics costs. Our suppliers are announcing significant price increases with immediate effect in response to the extraordinary changes. The supplier price adjustments that are being passed on to Amcor Flexibles are not currently reflected in the indices, and we will need to recover these costs.

We intend to exercise an early price adjustment effective April 1, 2026 which will include these extraordinary costs.

We are working diligently to minimize the impact wherever possible. With continued focus on the continuity of supply to meet the needs of your business, we are also closely monitoring and analyzing options to shift supply if necessary. Our robust and well-tested business continuity plans are in place to support our footprint, scale and strong supplier relationships.

We recognize this continues to be a challenging and uncertain period, and we value your ongoing feedback and partnership as we navigate these conditions together. We remain committed to engaging with you as we navigate this situation. Please reach out if you have any questions or concerns.

Thank you for your continued trust and partnership.

Kind regards,

Elizabeth Youngstein
Account Manager
Amcor Flexibles North America

INTEPLAST GROUP
AmTopp

March 30, 2026

To Our Valued Stretch Film Customers:
Ongoing unrest in the Middle East has continued to affect the global polyethylene market. Energy market volatility, supply chain disruptions, and production constraints have all contributed to higher costs and reduced availability of polyethylene across North America. Despite our continued efforts to manage these pressures, our suppliers have announced an additional price increase that will take effect in April.

In response to these increased raw material costs, there will be a 20% price increase for all products, effective on orders received on or after April 20, 2026. All orders must call for immediate delivery.

It is very important to take note that orders will be limited based on your average monthly shipments over the last six months. We reserve the right to accept or decline orders for any reason.

Please contact your Sales Representative if you need any additional information.

Thank you for your continuing support of AmTopp stretch film products.

Sincerely,

Scott Stevens
General Manager

March 30, 2026

Dear Valued Customer:

Escalating conflict in the Middle East continues to disrupt global supply chains and energy markets. These conditions are driving rapid increases in polyethylene resin, along with rising costs across logistics, energy, and raw materials. In response to these unprecedented market conditions, Alliance Films is implementing the following; effective immediately:

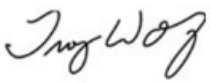

All new orders placed on or after April 13, 2026, will reflect an additional 20% increase, aligned with current supplier increases, which are at or above this level.

Contract pricing is suspended due to extreme volatility, supply uncertainty, and ongoing geopolitical disruption. All orders are subject to availability, and Alliance Films reserves the right to allocate supply, limit volumes, or decline orders based on lead times and resin availability. All orders must call for immediate delivery and cannot be restricted in any way. Pricing will be based on market conditions at time of shipment, not order placement.

Additional supplier increases have already been announced for May, and conditions remain fluid.

This is not a discretionary adjustment. It is a direct response to real-time cost escalation and constrained supply across the global resin market. We will continue to monitor the situation, and we will keep you informed to the best of our ability.

Sincerely,

Troy Wolf
President
Alliance Films

March 27, 2026

Dear Valued Stretch Film Customer, Recent events in the Middle East have resulted in substantial global

reductions in PE production,
significant supply chain disruptions, and sharply rising freight costs.
This unprecedented volatility has led our resin suppliers to announce raw material increases at levels not previously experienced, with the possibility of additional adjustments in the near future.
As a result, IPG will implement a ***20% price increase*** on all SuperFlex® and StretchFlex® products for orders placed on or after ***April 20, 2026***. All orders must request immediate shipment and fall within our standard delivery timelines. We will strictly monitor and allocate any atypical order volumes or loading quantities. In addition, as is customary during periods of constrained supply, IPG reserves the right to accept or decline orders based on resin availability.

This remains a rapidly evolving situation, and further increases may be required with limited notice. IPG is committed to closely tracking developments and communicating updates as quickly as possible.
We sincerely appreciate your continued partnership. Your local sales representative will be reaching out to discuss the full impact of this increase in greater detail.
Sincerely,

Glenn K. Cooper
Vice President - Stretch Film & Strategic Planning

March 27, 2026

Dear valued customer,

Ongoing global supply chain disruptions, energy market volatility, and continued production constraints have significantly impacted the availability and cost of polyethylene globally. These factors are tightening supply across North America and driving rapid upward pressure on resin pricing. Our suppliers have announced a further price increase for April as market conditions remain highly dynamic.

In response to these continued resin cost increases, Sigma Stretch Film will implement a price increase of 20%, effective on all new orders placed on or after April 20, 2026.

All orders must call for immediate delivery. **Due to severely constrained resin availability and ongoing supply uncertainty, Sigma Stretch Film will strictly limit order volumes and allocation.** Order acceptance will be prioritized based on available resin supply, and we may be unable to fulfill all requested quantities. Sigma Stretch Film reserves the right to accept or decline any order, in whole or in part, at our sole discretion.

We recognize the significant impact this increase may have on your business and do not take this decision lightly. These actions are necessary to ensure continuity of supply in an extremely constrained market. Your Sigma Stretch Film sales representative is available to work closely with you to help navigate these changes and provide the most up-to-date information possible. We sincerely appreciate your understanding, continued partnership, and support.

INDUSTRIAL JAN-SAN SAFETY

Stretch Film Tapes Poly Bags Mailers/PLEs Labels Shrink Film

Can Liners Towel & Tissue

Gloves/PPE

Medical Kits

WRAP TITE

Your Source For Industrial Packaging, Jan/San & Safety Supplies

Dear Valued Customer,

Date: 3/27/2026

Ongoing global supply chain disruptions, energy market volatility, and continued production constraints have significantly impacted the availability and cost of all petrochemicals globally. These factors are causing prices of all raw materials of the below products to go up substantially.

Our resin producers as well as overseas suppliers of various products have increased prices almost on a daily basis and for April supply- as market conditions remain highly dynamic.

In response to these cost increases- **Wrap-Tite will do the following increases effective April 20th-**

Product Catagory	% Increase
All Stretch Film	17-20%
Disposable Gloves	25-35%
Non-Disposable Gloves	15-20%
Personal Protective Equipment (PPE)	15-20%
Can Liners	25-30%
Towel & Tissue	10-20%
Copy Paper	6-10%
Poly Mailers	10%
Python Paper Products	3-5%
Poly Bags	10%
Packing List Envelopes (PLEs)	8-10%
Labels	3-5%

All orders must call for immediate delivery- due to severely constrained resin supply and daily increases from overseas suppliers, Wrap-Tite will strictly limit order volumes to one month purchase based on previous 12 month purchases. Order acceptance will be priortized based on availability of material and we may not be able to fulfil all requested quantity. Wrap-Tite reserves the right to accept or decline any order, in whole or in part, at our sole discretion.

We recognize the significant impact this increase may have on your business and do not take this decision lightly. These actions are necessary to ensure continuity of supply in an extremely constrained and fluid market. Your Wrap-Tite representative is available to work closely with you to help navigate these changes and provide the most up-to-date information possible. We sincerely appreciate your understanding, continued partnership, and support.

Sincerely,

March 26, 2026

Dear Valued Customer,

Ongoing conflict in the Middle East has created significant instability across global supply chains and energy markets. In addition to rising polyethylene resin costs, ancillary expenses including logistics, energy, and other raw materials continue to increase substantially.

As a result of these developments and recently announced supplier actions, Revolution Stretch is ~~implementing the following~~:

- *All open orders as of the end of day March 31, 2026, will be repriced with an increase of 10%. This adjustment is in addition to the resin supplier increase that became effective March 1, 2026.*
- *~~All new orders placed on or after April 1, 2026, will reflect an additional 20% increase associated with the April 1 resin supplier adjustments, which are currently at 20% or higher.~~*
- *Contract pricing is suspended due to unprecedented market conditions, pricing volatility, and supply uncertainty resulting from the war in Iran.*
- *Revolution Stretch reserves the right to accept or decline orders and may limit order volumes based on lead times and resin availability.*

Please contact your Revolution Stretch sales representative with any questions or for updates regarding current market conditions. Additional supplier increases have already been announced for May.

We sincerely appreciate your continued business and partnership and remain committed to supporting your operations during this challenging period.

Sincerely,

Gregg Smith
Vice President & General Manager
Revolution Stretch

March 25, 2026

Steep general cost increase for materials and services provided, following supply chain constraints and geopolitical uncertainties – need for price adjustments on products to be delivered to you

We had hoped that 2026 would bring a more stable outlook for the flexible film markets and associated input costs. Unfortunately, the rapidly escalating conflict in Iran and the broader Middle East has created renewed instability across global supply chains and energy markets, resulting in significant cost increases throughout our value chain.

These developments are affecting not only our key raw materials, including polyethylene resins, but also additives, logistics, externally provided services, and energy inputs.
Below, we would like to outline the main factors currently driving cost increases for Trioworld.

Raw materials used in the production of flexible films

Ongoing supply chain disruptions, limited availability of material, challenges in transporting products across global markets, are contributing to substantial price inflation. In March alone, we have seen supplier price increases USD $0.10, with further unprecedented increases for April ranging from USD $0.20 to $0.40 per pound due to the geopolitical situation and associated disruptions. Despite our continued efforts to mitigate these impacts, the reality is that these conditions arose from an Act of War and are completely out of our control.

Energy costs

The conflict in the Middle East has added further pressure to already strained global energy markets, particularly because the region plays a central role in the supply of oil and natural gas. Any escalation in tensions creates uncertainty around production, transport routes, and overall energy availability, which quickly impacts market pricing.

NOVA Chemicals, Inc.
1555 Coraopolis HeightsRoad
Moon Township, PA 15108
USA
Tel: 1.412.490.4000
novachemicals.com

March 25, 2026

Dear Customer:

NOVA Chemicals is confirming our previously announced price increase of ten cents per pound ($0.10 USD/lb.) for all grades of NOVAPOL®, SCLAIR®, and SURPASS® polyethylene resins effective March 1, 2026.

Additionally, NOVA Chemicals is revising the previously announced price increase of five cents per pound ($0.05 USD/lb.) for all grades of NOVAPOL®, SCLAIR®, and SURPASS® polyethylene resins effective April 1, 2026 to a price increase of twenty cents per pound ($0.20 USD/lb.) effective April 1, 2026.

If you have any questions about product availability, pricing, or your current orders, please do not hesitate to reach out to your NOVA Chemicals Account Manager. We appreciate your continued partnership.

Sincerely,

NOVA Chemicals

Jim Worby
Vice President, Polyethylene Sales

Responsible Care®
Our commitment to sustainability.

Transport and logistics costs

The current geopolitical situation is affecting global freight flows, shipping routes, and the availability of transport capacity. The price of fuel continues to climb and are approaching record highs.

Our commitment

We remain fully committed to maintaining the high level of service and support you expect from us, and this continues to be one of our highest priorities. However, given the magnitude and persistence of these cost increases, we must implement immediate pricing adjustments, as follows:

- **All open orders as of the end of day, March 31, 2026, will be repriced up by USD $0.10 per pound.** This increase coincides with the increase announced by our suppliers that took effect on March 1, 2026.
- **All new orders will be processed with a further increase of USD $0.20 per pound**, reflecting April cost increases and extended leadtimes.
- **All contract pricing arrangements will be suspended until further notice,** due to the inherent and unpredictability of market conditions arising from this **Act of War.**

It is important to note that further adjustments may be required should additional supplier increases, including those already indicated for May (USD $0.20 per pound), be implemented.
It is our clear intention to continue monitoring developments closely and to review these adjustments when market conditions begin to stabilize and costs return to more normal levels.
We sincerely appreciate your understanding and partnership during this challenging period. Our priority remains ensuring continuity of supply and delivering world-class service to our customers.
Should you require any additional information or wish to discuss the impact in more detail, we remain at your disposal.
Yours Sincerely

Ricardo Cardoso
President and CEO

Westlake
Polyethylene

March 24, 2026

Dear Valued Customer,

Westlake Polymers is revising our April 1, 2026 $0.10/lb price increase for all grades of polyethylene to $0.20/lb.

This increase is in addition to the previously announced price increase of $0.10/lb. for all grades of polyethylene which was implemented on March 1, 2026.

Your Westlake sales representative will contact you to discuss any questions you have related to your product pricing. We appreciate your business and look forward to continuing to serve your resin needs.

Sincerely,

Scott Hanks
Associate Director - Sales, Polyethylene

Westlake Polymers LLC

PRICE INCREASE ANNOUNCEMENT March 24, 2026

Dear Valued Customer,

SABIC reaffirms our previously announced $0.10/lb. PE price increase, effective March 1, 2026. Additionally, SABIC is announcing a new $0.20/lb. polyethylene price increase effective April 1, 2026. These price increases will apply for all polyethylene resins sold in the United States and Canada.

We sincerely appreciate your business and look forward to working together to serve your polyethylene needs. Your SABIC Account Manager will contact you to respond to any questions or concerns that you may have related to product pricing.

Sincerely,

Olga Sessions

March 23, 2026

Dear Valued Customer: ExxonMobil Product Solutions Company confirms the previously announced

increase of $0.10/lb
effective March 1, 2026, and will implement an additional increase of $0.20/lb effective April 1st, 2026. This price increase applies to all polyethylene resins.

Your sales representative will be in contact with you to discuss specific prices on the grades you purchase and answer any questions that you may have. We value your business and thank you for the opportunity to continue to serve your polyethylene resin needs.

We arecurrently monitoring the ongoing situation very closely, and that may require us to notify you of furtherchanges above and beyond what is stated in this letter.

Sincerely,

Peir Fen Sung

RE: IPG Price Adjustment Announcement

Dear Valued Customer,

Recent developments in the Middle East have significantly disrupted global energy markets, as well as the supply of raw materials and freight services both in North America and internationally. The resulting uncertainty and increased risk within the industry are attributed to mounting pressures on supply chains, particularly those involved with resin-based materials.

Suppliers across North America and globally have begun implementing price increases, with further adjustments possible as circumstances evolve. In response to these rapid changes, IPG is closely monitoring market conditions and remains dedicated to ensuring consistent supply, high product quality, and attentive support for our customers.

Effective April 9, 2026

CARTON CLOSURE TAPE PRODUCTS	***% INCREASE***
Hot Melt Carton Sealing Tape	8-10%
Acrylic Carton Sealing Tape	4-6%
Natural Rubber Carton Sealing Tape	4-6%
Water-Activated Tape	4%
Paper Carton Sealing Tape	3-5%
INDUSTRIAL SPECIALTY TAPE PRODUCTS	***% INCREASE***
Double-Coated Tape, Duct Tape, Electronic/Electrical Tape, Sheathing Tape, Filament & MOPP Tape, Flatback Tape, Foil Tape, Indicator Tape, Masking Tape, Polyethylene Tape, Ancillary Products	5%
Stencil	3%
PROTECTIVE PACKAGING PRODUCTS	***% INCREASE***
All Protective Packaging Products	9%

This price adjustment will impact all into stock pricing and end-user deviated contracts. Some customers may experience adjustments beyond the listed values, and those specific customers will receive direct communication from their IPG Territory Business Manager. ***For all orders placed between now and April 9, 2026, immediate shipment must be specified, and quantities should not exceed one month's average purchases. IPG retains the right to accept or reject orders based on available capacity.***

Orders received after April 8, 2026, at 5:00 pm EST will be subject to higher pricing. Updated price lists will be available on IPG's B2B site on March 23, 2026. Please refer to B2B for specific percentages by product.

We appreciate your understanding and continued partnership as we navigate these industry challenges together.

For any questions or details regarding the market factors driving this adjustment, please contact your IPG Territory Business Manager or Customer Service Representative.

Sincerely,

Shawn Nelson
Senior Vice President, Sales & Marketing
IPG

March 19th, 2026

Subject: Price Adjustment Notification – Packaging & Sheets.

Dear Valued Customer,

Due to sustained inflationary pressures across our operations, pricing adjustments have become necessary to ensure the ongoing reliability and quality of our products and service levels. The primary drivers behind these adjustments are rising fuel/energy costs, higher logistics/transportation, increased wage structures across the industry, and upward pressure on production costs.

Cascades will be increasing prices for all packaging products and sheets by 12% for shipments made on or after Wednesday, April 20th, 2026, regardless of when the order was placed.

These factors have significantly impacted our overall cost base, and these adjustments will support our ability to maintain the quality, service levels, and operational stability that you expect from Cascades.

We sincerely appreciate and thank you for your continued loyalty and support. Cascades remains committed to being a strategic partner in the growth and success of your business, today and in the years ahead.

Best regards
